MINERALS-TECH CO Presents to show at MIDDLE EAST COATINGS SHOW EGYPT

Minerals Tech, a leading provider of premium mineral solutions, is excited to announce its participation in the upcoming Middle East Coating Exhibition, where the company will showcase its extensive range of high-quality coated and uncoated calcium carbonate powder products.

The Middle East Coating Show is a prominent platform for industry professionals and stakeholders to explore the latest advancements, innovations, and trends in the coatings sector. Minerals Tech's participation underscores its commitment to delivering the best-in-class mineral solutions and fostering strong partnerships within the industry.

At the exhibition, Minerals Tech will highlight its exceptional portfolio of coated and uncoated calcium carbonate powder. With unrivaled expertise and advanced production capabilities, Minerals Tech offers a comprehensive range of products that meet the demanding requirements of various applications, including paints, coatings, adhesives, plastics, and more. The company's calcium carbonate powder is renowned for its exceptional whiteness, particle size distribution, and outstanding dispersibility, ensuring superior performance and optimal results for customers.

"Our mission at Minerals Tech is to provide our customers with the highest quality mineral solutions," said Mr. Hazem Helme, founder/manager at Minerals Tech. "We are dedicated to delivering products that exceed expectations, and our coated and uncoated calcium carbonate powder is a testament to our unwavering commitment to quality and innovation."

Minerals Tech takes great pride in its customer-centric approach, ensuring seamless communication and exceptional service at every stage. With a dedicated and knowledgeable team, the company ensures that customers have easy access to expert guidance, technical support, and customized solutions tailored to their specific needs.

Visit Minerals Tech at Booth **1J50** during the Middle East Coating Show to learn more about the company's exceptional coated and uncoated calcium carbonate powder products. Our

representatives will be available to answer questions, provide detailed product information, and discuss partnership opportunities.
