

# About Us

Head Quartered in  
**Dubai, U.A.E**

**One Stop** Solution  
Partner for specialized  
chemicals

Established in **2009**

**10,000 +** Products

**12** Business Units

**Techno Commercial**  
Team operating from  
multiple locations

Regional **offices** and  
service centres in **18**  
countries

**Warehouses in 3**  
**Continents**

**First** chemical  
distribution company  
in region to introduce  
**VMI**

Environmental  
**Friendly**  
Chemistries

Strong technical  
support from  
**world class**  
principals

**Best in Safety**

# Vision

To make ourselves synonymous with industrial chemical distribution across the world by creating an extraordinary network of manufacturers and end users and touching everyday lives through the most sustainable products.

# Values

**A ccessibility:** From first contact to the resolution of our customers' requirements, we make ourselves easily accessible and create a bouquet of effective solutions for our stakeholders.

**L istening:** We believe that the core of any relationship is the ability to listen. We listen, respect and aim to create an atmosphere of mutual appreciation with our suppliers and clients.

**T rust:** We invest in the principle of honesty and conduct our business ethically because we endorse trust as the foundation our core values.

**E xcellence:** We understand that our customers and suppliers need us to go beyond the ordinary to facilitate product excellence and work the extra mile.

**K nowledge:** Our expertise is based on sound knowledge and experience in our field, and we offer competent solutions based on rich industry know-how.

# Business Units

**Petrochemical and Refinery**

**Coating and Inks**

**Detergent and Personal care**

**Mining and Metal Treatment**

**Building and Construction**

**Adhesive and Polymer Emulsion**

**Rubber**

**Pine Oil and Derivatives**

**Plastics and Cable**

**Carpet and Textile**

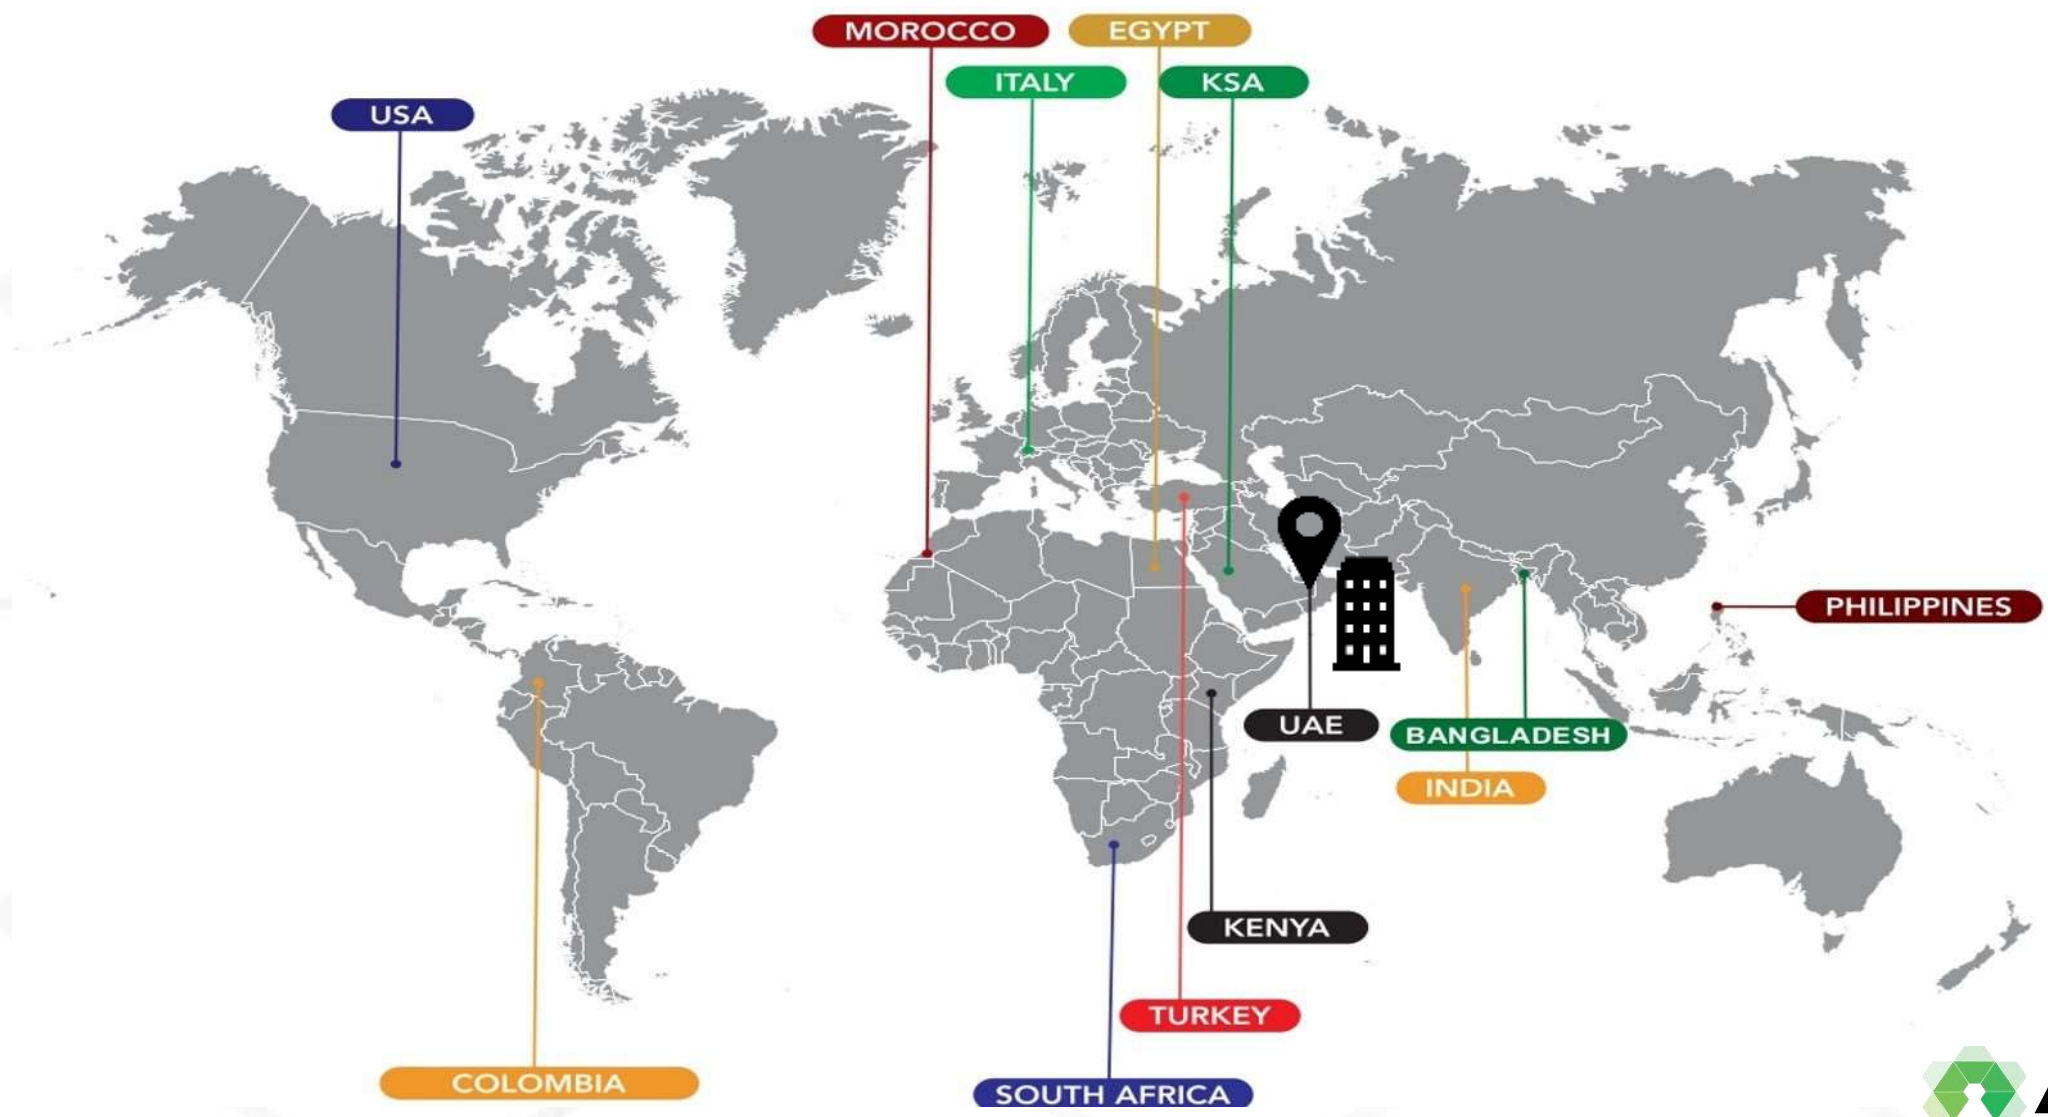

**Composites**

**Polyurethane**

# Global Presence

# Coating and Inks

Altek offers a one-stop solution to the coatings and printing inks industry, producers of decorative paints, architectural coatings, industrial coatings, auto-refinish paints, powder coatings and all kinds of inks. We provide a vast range of binding agents, coloring agents, white pigments, filling agents, solvents, and additives. All key raw materials including polymers, additives, fillers, etc. are carried and maintained at our world-class inventories and are delivered on a call-off basis.

We supply high quality raw materials for a multitude of applications in the Coating and Ink Industry to improve the efficiency, durability and appearance of our customers finished product. Manufacturers of Coating and inks can select from our comprehensive portfolio to produce high performance products that meet the desired specification.

# Coating and Inks

Altek Coating and Inks is a material, which exists in various forms. It can be tailored to be either rigid or flexible, and is the material of choice for a broad range of end-user applications such as:

**Industrial  
Paint**

**Decorative**

**Road  
Marking**

**Automotive**

**Coil  
Coating**

**Inks**

# Coating and Inks

One-Stop Solution Partner for Coating and Inks Industry
