Industrial Division

International Trading Division

## **MISSION STATEMENT**

*Sustainability of the quality leads to client's satisfaction and long terms business relations between ALPHASTONE and its **partners** either in the local or international markets.*

## Company Profile

**Established** in 2008 in Egypt to produce coated and Uncoated Calcium Carbonate and Talc Powder and continuously making superior efforts along with financial investments for the improvement of the quality of its products and international services.

## Industrial Activities

**ALPHASTONE** succeeded in being one of the largest manufacturers and exporters of Calcium Carbonate and Talc Powder in Egypt with production capacity of more **40,000** MT per month covering local and export markets.

ALPHASTONE now is having its own three manufacturing units in El Menia State in South Egypt along with the Head Quarter in Cairo, now producing **33,000** MT per month from all the different powdered grades of Calcium carbonate & Talc along with more than **7,000** MT per **month** from granular limestone.

## International Trading Activities

**ALPHASTONE** also established its International Trading Network to become one of the biggest Minerals and Mining commodities portfolio holders in Egypt to connect the World with the Egyptian goods / products through its sister's companies in Dubai.
