Who we are

Before expanding our activities to include the petrochemical trading, our group of companies started with a construction and aluminum business.

Al Rehab Building Construction

Our construction arm is a reputable firm with 20 years of experience in the construction industry.

Their expertise includes building residential buildings, compounds, schools, hospitals, police stations, farming facilities and other projects. We

have collaborated with premium consultant companies such as Aqaar, Bukhatir Group and Gulf consultants and have a strong base of clientele, including UAE government, Al Khaleej Times and many others,

Al Rehab Aluminum and glass work

Our aluminum glassworks company has grown rapidly to become a leading supplier in the construction industry. Initially created to supply our own construction company, we now cater to a broad range of projects, providing top-quality aluminum and glass products that meet and exceed client expectations. We take pride in our XX sq. ft modern factory, which houses state-of-the-art equipments and technologies for producing the highest quality aluminum and glass products.

Ranking

We are proud that our company has been ranked first among all construction businesses in Ajman, with a 5-star rating to showcase our exceptional services. This accomplishment highlights our unwavering commitment to adhering to the strict requirements mandated by the government, further cementing our position as a distinguished enterprise in the region.

Al Rehab Chem for trading and distribution

We are excited to announce our expansion into the petrochemical trading industry. Building on the success of our aluminum glassworks and construction companies, we venture into this new direction. We are actively seeking collaborations with chemical industry leaders to broaden our market outreach and offer our clients high-quality petrochemical products at competitive prices. With our established supply chain networks and trading expertise, we are confident in our ability to deliver superior petrochemical trading and distribution services.

We are proud to offer a diverse range of high-quality products, ranging from chemicals to polymers.

- * Polymers
- * Glycols
- * Monomers & Acrylate
- * Alcohols
- * Solvents
- * Amines
- * Polyurethane
- * Refined products

Warehouses

Al Rehab Group has strategically located warehouses in Ajman, Dubai, Sharjah, and even abroad in Egypt. These warehouses, which are vast in size, enable your company to cater to the needs of companies within your group and serve as distributors to big manufacturing facilities in the region. This allows for faster delivery times, reduced transportation costs, and improved supply chain efficiency.
