

Al Nahda International FZCO

Al Nahda International FZCO

Company Profile

In 1979, Al Nahda International was established in Dubai, United Arab Emirates. With Dr. T R Vijayan's leadership and guidance, Al Nahda International has grown over the past 37 years from a small trading house to a diversified group of companies involved in trading, manufacturing, warehousing and logistics activities.

Today, Al Nahda International FZCO is one of United Arab Emirates' leading, well diversified, multi-product industrial chemical distributor. In fact, Al Nahda International was the first company to import bulk IPA into the United Arab Emirates. We also supply our products, including solvents and basic chemicals, to a wide range of industries in the GCC and East African countries.

The world is changing faster than ever before. We believe the key to success lies in not just adapting to changes but also in embracing them and moving forward. So within Al Nahda, we constantly explore how we can respond to the growing demands of our valuable customers and serve them in the best possible manner.

The major industries we currently supply to are:

- Paint & Polymer Manufacturing
- Packaging & Printing Ink Industry
- Perfumes & Cosmetics, Pharmaceutical
- Water treatment
- Detergent & Personal Care

We have a dedicated team of over 200 employees with extensive industry experience and a total of 7 offices located in the United Arab Emirates.

We are certified under ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 and maintain strict health and safety standards.

Infrastructure

Our group of companies have developed a considerably large storage facility of 70,000 sq m including bulk storage for solvents and other liquid chemicals. These storage facilities are situated in four strategic locations – Al Quoz Industrial Area, Jebel Ali Industrial Area, and a state of the art terminal in Jebel Ali Free Zone (JAFZA) which can store up to 15,000 CBM. Our huge warehousing facility enables us to stock enough inventory and ensure uninterrupted supply of products to our customers.

We have our own fleet of 40 ft trailers and tankers which help us ensure timely delivery of our products to our customers. We also do onsite blending as per the requirements of our customers and have the latest drum and ISO-tank filling facilities.

With our new state of the art terminal, we are better placed than ever before to participate fully in the growth and future of the chemical industry. Excellent infrastructure coupled with our vast and varied experience in the industry make Al Nahda International FZC a highly competitive chemical distributor catering to major multinational and local industries around the region.

Our Values

We focus strongly on customer satisfaction, quality and reliability. It is our mission to be the supplier of choice to our customers and to build strong and enduring relationships. We meet customers' needs and contribute to their success with timely deliveries and cost-effective solutions.

At Al Nahda International FZCO excellence in safety, health and environmental practices is our top priority. We are committed to ensuring that our facilities meet all compliance standards and promote best operational practices.

We constantly work to improve our product line and services to meet the current and future needs of the society. Sustainability is fundamental to how we do business. We bring together our expertise in many different fields and build partnerships to develop value-adding solutions.

Al Nahda International FZCO

Our Suppliers

Al Nahda's global sourcing strategy and long-term relationships with major multinational manufacturers around the world give us the competitive edge and enable us to make long term supply contracts with leading industries in the region. We are the approved distributors to world-renowned companies like Sasol, Shell, Tata, Al Kout, Shiny, and Dow to name a few.

Sasol:

Over 20 years of relationship with Sasol and currently distributing their products for GCC.

SHELL Chemicals:

Over 30 years of relationship with Shell Chemicals.

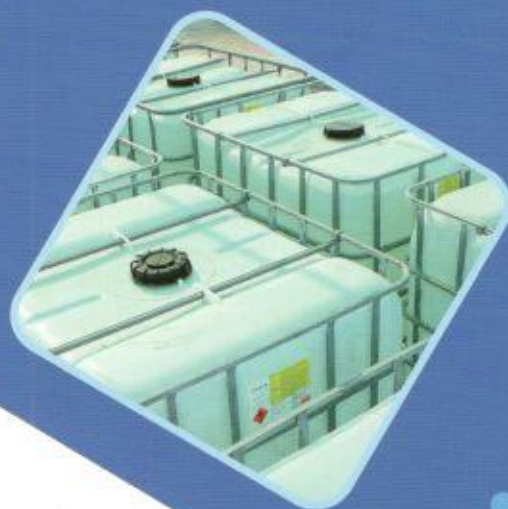

The Dow Chemical Company:

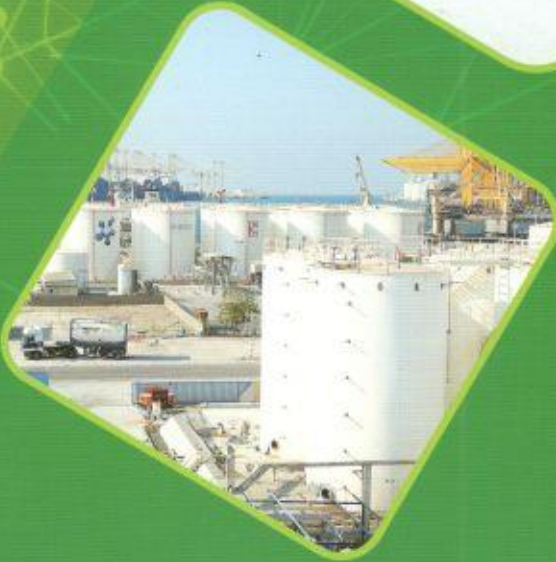

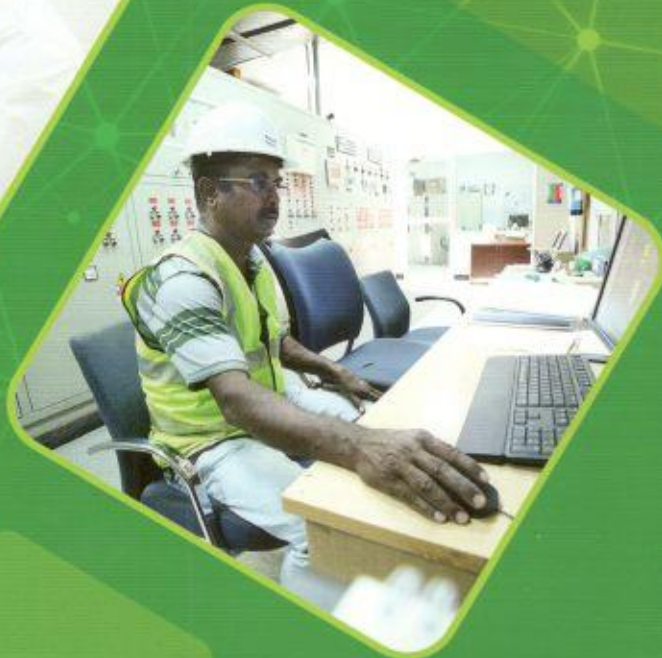

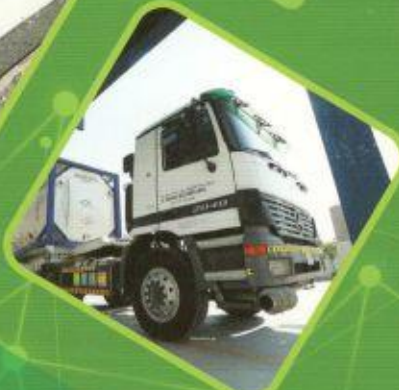

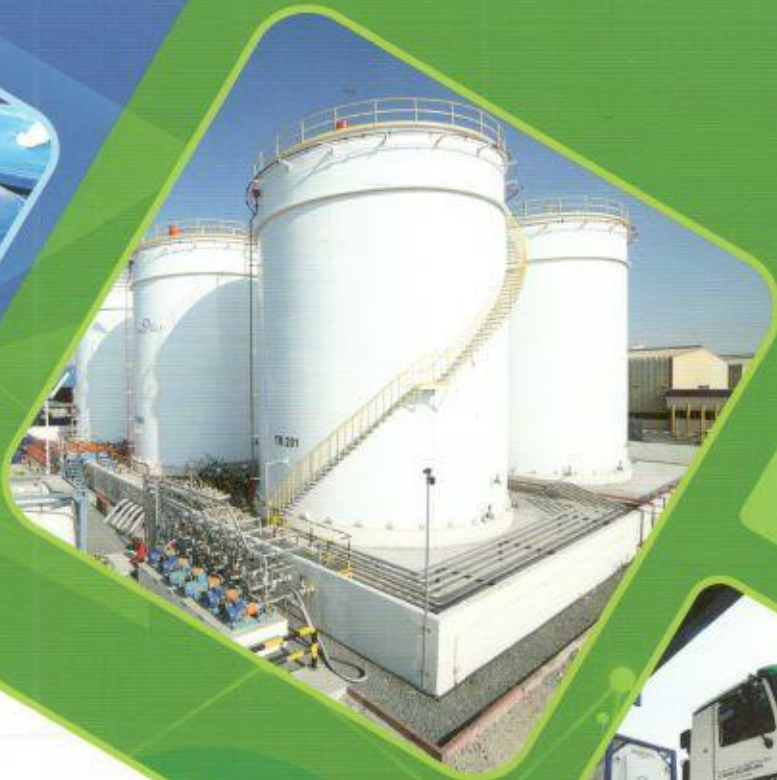

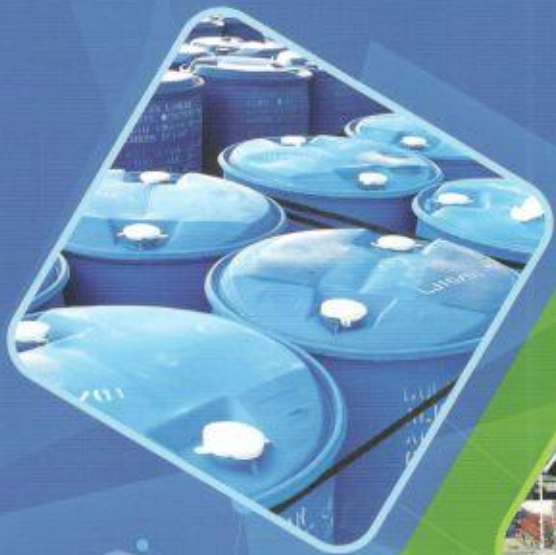

Over 25 years of supplying Dow's quality products in the region.

TATA Chemicals:

Over 30 years of distributing TATA's products in the Middle East region.

PAINT & POLYMER MANUFACTURING

Acetone
Butyl Acetate
Butyl Acrylate
Butyl Di Glycol Acetate
Butyl Glycol
Butyl Glycol Acetate
Di Propylene Glycol
DPM
Ethanol
Ethoxy Propanol (PE)
Ethyl Acetate
Glycerine
Iso propyl Alcohol 85%
Iso propyl Alcohol Pure Grade
Iso Propyl Alcohol technical grade
Maleic Anhydride
Methanol
Methoxy Propanol (PM)
Methoxy Propyl Acetate (PMA)
Methyl Acetate
Methyl Ethyl Ketone
Methyl Iso Butyl Ketone
Methyl Meta Acrylate (MMA)
Mono Propylene Glycol
Normal Butanol Pure grade
Normal Butanol Technical
Normal propanol Pure
Normal Propanol technical
Normal Propyl Acetate
Pthalic Anhydride
VAM

PACKAGING, PRINTING & INK MANUFACTURING

Butanol
Butyl Glycol
DPM
Ethanol Packaging Grade
Ethanol Pure
Ethoxy propanol (PE)
Ethyl Acetate
Iso propyl Alcohol Pure
Iso Propyl Alcohol technical
Methoxy Propanol (PM)
Methoxy Propyl Acetate (PMA)
Normal Propanol pure
Normal Propyl Acetate
Normal Propyl Alcohol technical

PERFUMES , COSMETICS & PHARMACEUTICALS

Acetone
Benzalkonium Chloride
CDEA (Coco Diethanolamide)
Cetyl Alcohol
Cetyl Steryl Alcohol
Di Propylene Glycol (DPG)
EDTA
Ethyl Alcohol 96% (Ethanol 96%)
Ethyl Alcohol 99.99% pure grade(Ethanol 99.99%)
Glycerine
Hydrogen Peroxide 35%
LABSA (Linear Alkyl benzene Sulphonic Acid)
Mono Propylene Glycol (MPG)
Potassium Hydroxide (Caustic Potash)
Salt
SLES (Sodium Lauryl Ethyl Sulphate)
Sodium Hydroxide (Caustic soda)

DETERGENT & PERSONAL CARE

Acetic acid
Acetone
Benzalkonium Chloride
CDEA (Coco Diethanolamide)
Cetyl Alcohol
Cetyl Steryl Alcohol
Di Propylene Glycol (DPG)
EDTA
Ethyl Alcohol 96% (Ethanol 96%)
Ethyl Alcohol 99.99% pure grade(Ethanol 99.99%)
Glycerine
Hydrogen Peroxide 35%
LABSA (Linear Alkyl benzene Sulphonic Acid)
Mono Propylene Glycol (MPG)
Potassium Hydroxide (Caustic Potash)
Salt
SLES (Sodium Lauryl Ethyl Sulphate)
Soda Ash Dense
Soda Ash Light
Sodium Hydroxide (Caustic soda)
Sodium Sulphate
STPP (Sodium Tripoly Phosphate)
Talc
Zeolite
